

SAFE-HIT® TAXIWAY RETROREFLECTIVE MARKER POSTS

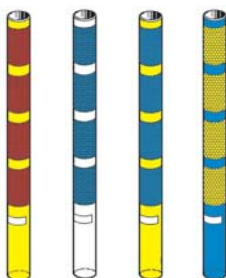

SAFE-HIT's airport markers are FAA approved and meet the specifications of the FAA Advisor Circular: AC150/5345-39B. All "Airport" products utilize hi-intensity retroreflective sheeting. The posts are made of co-extruded polyethylene with U.V. inhibitors and can be installed in soil or on asphalt or concrete. Posts are warranted in accordance with the Federal Aviation Administration requirements.

Contact your sales representative for a complete schedule of pricing, drawings and specifications.
