

SCHOOL ZONE SAFETY 101

Are your school zone safety signs and speed signs working?

Hi-Star Model
NC-97 Shown

Find out with the... HI-STAR Portable Traffic Analyzer

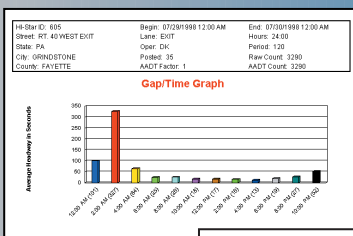

The patented HI-STAR® portable vehicle detector uses vehicle magnetic imaging technology to provide accurate vehicle counts and speed studies. Vehicle lengths (classification), road surface temperature, roadway occupancy, and wet/dry surface condition data is also available.

School Zone Capabilities:

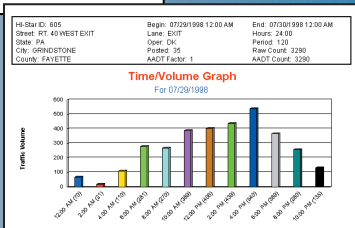

- Evaluate the need for crossing guards
- Determine effectiveness of speed limit signs
- Evaluate school safety sign effectiveness
- Justify need for traffic calming devices
- Eliminate traditional tubes, chains and locks
- Non-obtrusive; Does not alter driver behavior
- Data can be shared with law enforcement

featuring the exclusive
**HDM® (Highway Data
Management) Software**
